

TRIPOD

IS-TP-800

DESCRIPTION

The ultimate tripod utility model widely used for confined spaces. Fully adjustable telescopic legs and adjustable height. It comes with an inbuilt fixture for Techtion Winch.

FEATURES

- Designed for delivery or retrieval of equipment or personnel, for rescue or fall protection. It features a smooth operation and quick, no-tools set up.
- The aluminum construction makes the tripod incredibly lightweight and easy to transport to and from your jobsite. The winch is heavier than the tripod itself, but even this features a carrying handle making transport relatively hassle free.
